The authors have retracted this article. After publication, they were alerted to an error in their calculation: some participants in the NHANES data releases for 2017–2020, 2019–2020, and 2017–2018 were inadvertently double counted, leading to an inflated figure of 24,814 rather than 15,560. The authors are preparing a new manuscript for submission and peer review. All authors agree with this retraction.
